

CQart granite floorscapes | bhajan hunjan & lpw

Leicester Print Workshop and artist Bhajan Hunjan have collaborated to create artworks in sandblasted granite, embedded into the floorscape of the St. George's Cultural Quarter. These are situated at strategic entrances, on pathways leading to the new Performing Arts Centre, Curve, and have been designed with the assistance of Leicester's community.

The locations of the roundels and the thread can be found using the map below.
